Kitchen with Dishwashers, Fridge/Icemaker, Microwave etc

Maid Service included, Chef if required, Broadband Internet

Château de Lamostonie is one of the loveliest Châteaux in the region and looks over gardens, fields and woodland to the rural beauty of the valley beyond. The Château dates from 1478 and was re-modelled in 1823. It has recently been restored to the highest standards and is a lovely place to spend a memorable holiday with family and friends. The Chateau is surrounded by 35 acres of its own land and is let on an exclusive basis, providing complete privacy. Chateau de Lamostonie has a Rapunzel tower and a Juliet balcony. The mature gardens have sweet-scented roses, lavender and sweeping lawns. The chateau provides a perfect setting for a traditional summer house party, but it is also warm in winter with roaring log fires. Broadband internet access (DSL / ADSL) with wireless (wifi) is available in Chateau de Lamostonie.

Bedrooms

There are 6 double bedrooms with en-suite bathrooms. Two of the double bedrooms are arranged as suites with an adjoining dressing room or a room where children may sleep as appropriate. There are 4 single bedrooms and additional shower rooms (one with a sit-in shower). The master double bedroom has a romantic balcony. A service lift provides access to the upper floors for those who prefer not to use the stairs or perhaps for a wheelchair. See the floorplan showing the bedroom layout.

Heated Swimming pool, Flood-lit Tennis court

The Château has a large heated swimming pool (15 x 6m) with more garden furniture, a barbeque and a pleasant terrace. There is a recently installed flood-lit hard tennis court with racquets and balls provided.

Dining, Music, and Drawing Rooms, Chapel, Kitchen, and Terraces

Inside the Château there is a magnificent dining room with a huge fireplace for log fires and a large table where parties may dine by candle-light. There is a wood panelled music room with a Pleyel grand piano (made in about 1890) and an elegant drawing room. For quiet moments, there is a tiny chapel in the tower, with stained glass windows. The older part of the house has an oak-beamed hall that could be used for larger celebrations, especially in the winter months. It houses a further grand piano and upstairs there is a snug TV room with Video and DVD recorders. Satellite CNN and BBC World programmes are also available.

There are large new kitchens, fully equipped and with two dishwashers, two ovens and microwaves etc. Although modern, they are in a traditional style, and retain some of the attractive features formerly present such as pretty dressers and a copper hood over the hob. In the kitchen there is an additional table with seating for 6. For those who prefer not to cook, we can arrange for an excellent local chef to prepare your meals.

There are two large terraces, suitable for eating outside, well equipped with garden furniture and easily accessible from the house.

Cottage / Pigeonnier

Within the grounds, but set a little way from the château, is a charming **cottage** with its own amenities. This is wonderful for a couple or a young family, sleeping up to 4. The cottage is let with the Chateau to provide additional accommodation if required.

Maid service

Maid Service is included three mornings a week to keep the house clean. If you wish to have additional maid service this may be arranged on request to the staff at an hourly rate. If required, we can provide details of local baby-sitters to enable you to make your own arrangements.

Linen and Towels are provided, but please bring your own swimming towels.

The château is built over a vast stone vaulted cellar in which there is a laundry room, with automatic washing machines.

Communications

Telephone calls are metered at cost and a wireless internet connection is available free of charge. A fax machine is provided. A deposit will be requested prior to your holiday. This is fully refundable less any expenses for Telephone, Central heating, or breakages at the end of your holiday.

Weddings and Parties

There are endless possibilities for creating a memorable and romantic celebration at Château de Lamostonie. As far as we can, we shall try to accommodate the individual arrangements you wish to make.

The terraces and lawns of the Château are ideal for drinks receptions. In Spring and Summer, you may wish to have a wedding breakfast or birthday meal outside. Tables and marquees may be set up in various places. One particularly idyllic spot for a party is under the shady branches of a large horse-chestnut tree to the south-west of the Château.

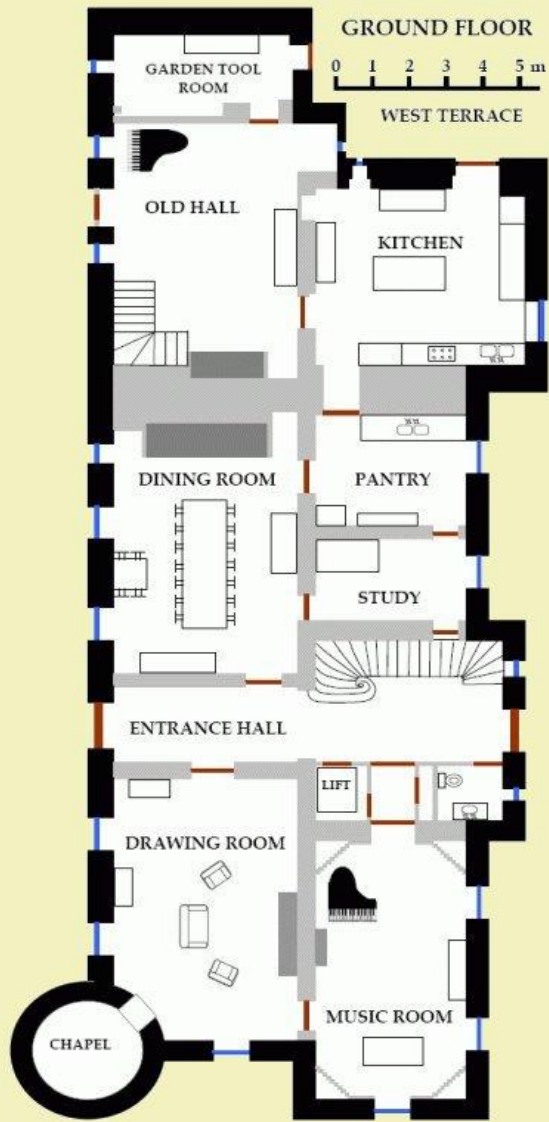

The dining room comfortably seats fourteen people. For larger parties, the hall in the older part of the house may also be used for dining.

We can assist you with details of appropriate caterers, florists and musicians.

Christmas and New Year

With its roaring log fires and wonderful views, Château de Lamostonie is a fantastic place to spend Christmas and the New Year.
