Château du Trichot is a 12th century castle. Beautiful and historic, it has a majestic stone staircase, high vaulted ceilings, ancient oak beams and large fireplaces. This magnificent Château is set amongst mature cedar trees and sweeping lawns in 18 acres of its own land. Beyond the long tree-lined drive, there is a gently rolling landscape with pretty fields and woodland of chestnuts, cherries, oak and ash. The Château's vineyard produces a fine red wine, once favoured by Tsar Nicholas II.

Heated Swimming pool, Flood-lit Tennis court

Château du Trichot has a large, heated swimming pool (6m x 12m) which is enclosed by a safety fence. The south facing sun terrace has tables and chairs for dining outside, and the courtyard has a barbecue for parties by the pool. At the end of the garden there is a flood-lit hard tennis court.

Dining Room, Drawing Room and Kitchen

The dining room has a long, baronial table and a log fire. The drawing room has a large open fire and a fine Bechstein grand piano. A television, stereo music centre and table tennis are provided for entertainment. The kitchen has an electric oven, microwave, gas hob, dishwasher and a large fridge/freezer. A chef may be organised if required.

Maid Service

Maid Service is included three mornings a week to keep the house clean. If you wish to have additional maid service this may be arranged on request to the staff at an hourly rate. If required, we can provide details of local baby-sitters to enable you to make your own arrangements. There is a laundry room with a washing machine.

Cottage

Within the grounds, close by to Château du Trichot, is a charming cottage with its own amenities. The cottage is let with the Château to provide additional accommodation if required, sleeping 6. There is a double bed on the ground floor and upstairs there are four single beds.

Bedrooms

There are four double bedrooms, three with en-suite bath or shower room. The master en-suite double bedroom has a large four poster bed and a view across the vineyard towards the village church. One en-suite double bedroom has a mezzanine gallery with two single beds suitable for children aged 4-10 years old. Another en-suite double bedroom, the blue room, looks out to the gracious cedar trees in the garden. A further double bedroom with a four poster bed overlooks the pretty courtyard. Up the ancient stone staircase is a tower room with three single beds. On the ground floor there is an additional single bedroom.
